Dear Larry,

Thank you again for serving as Auctioneer at the recent Jubilee Auction. Obviously we could not have done it without your services. I was very pleased with how the event went; although I really couldn't watch in detail, I was just really happy with the excitement, energy and fun that seemed to be swirling around. You were a big part of that energy!! You kept track of the bidders in marvelous ways and were really great at generating the positive vibes.

Because the chipper was auctioned out of sequence, there was an error in the final bid total - \$5,702 was actually bid! So it turned out even better than ever. Because of volunteers like you and generously donated supplies and skills, we can stretch every dollar to serve more families. With our very low overhead about 95% of that money will go directly into Habitat projects.

Thank you again for your generous support of Habitat for Humanity of Greater Ingham County.

Sincerely,

Julie Stickle
